

If You Don't Know By Now

Steve Wariner

We've talked it out for hours
And you're still havin' doubts
Shouldn't love be somethin'
You don't have to figure out
How can I ever know
Just where we are?
If you can't tell me
What is in your heart
If you don't know by now
How could tomorrow
Ever change the way that you feel?
If you don't know by now
I guess, you never will
Never had to question
That I loved you I just knew
Guess I took for granted
That you loved me too
You say you don't know
If your love is real
You need some time
To find out what you feel
If you don't know by now
How could tomorrow
Ever change the way that you feel?
If you don't know by now
I guess, you never will
There are just some things
Forever cannot do
Like make you love me
The way that I love you
If you don't know by now
How could tomorrow
Ever change the way that you feel?
If you don't know by now
I guess, you never will
I guess, you never will
