Black Woman

OhGosh!

Ride with me, baby
Just ride all night long, yeah
(Alright)Heavy like my lady
Just fly all night long, yeah
(Ride on)Some say that you're crazy
That doesn't mean my face is always blue, yeah
(Alright)Should it be the answer, should it be a sun?
Should it be the boy you never call your gun?
(Yeah)
Should it be the intro, should it be the sun?
Can it be the black girl you never call at one?So can you find my lady?
Can you justify the love you see tonight? Yeah
(Right on)So fly with me baby, just fly all night long
(Right on)
HuhShould it be the answer, should it be the sun?
Should it be the one you never want to come?
Should it be the intro, should it be you're gone?
Should it be your boy you never call your son?You get it on
You get it on, nowGet it
Get it
Just get it
You get itBlack woman
Black woman
Black woman
Black woman, yeah
