

अ० षष्ठे० अ१,

You know
 It's kinda fucked up but
 It's kinda like you're born to lose, you know what I mean?
 Stallion, get your own nigga
 Coke boy
 Montana
 You already know that
 All this money I be squaring eh
 You already know that
 All this money I be squaring eh
 All this money I be squaring eh
 Bring your love baby, I'mma bring my shine
 Bring the drugs baby, I'mma bring my pain
 You already know that
 All this money I be squaring eh
 All this money I be squaring eh
 I don't know what's what
 I never get it
 Or get it and lose it
 I mean it's sanctuary baby
 You know what they say
 It's the game of life
 We hungry the playa twice
 You heard
 A car, big mansion in the desert
 Tryna make a deal with the devil
 I wonder though
 Born to lose, ain't it?
 Rules of engaging
 Glued to the pavement
 Send it all
 My first flip was when the needle hit my vein
 Lost at odds is when the drugs fix the pain
 Pray for me tatted on my neck
 Fuck money, I was dyin for my respect
 I was higher getting whipped
 Was a way of life
 Stranded on the block
 Fiends buying worth, only thing in sight

Had to pay in life

Mama working 3 job, father leaning, he high
My home boy on the run, he hot
Montana!

You already know that
All this money I be squaring eh
You already know that
All this money I be squaring eh
All this money I be squaring eh
Bring your love baby, I?mma bring my shine
Bring the drugs baby, I?mma bring my pain

You already know that
All this money I be squaring eh
All this money I be squaring eh
Head shot, been in doubt
God got a plan for you
Bounce back, hit the block
OG got them grams for you

Get it on your own, nobody gave a hand to you
Now you hot, spinning ball shows, 30 grand for you
God protect the child, deck the hall is on
Almost lost it all for everything he own
Put that on everything

Thought I knew it all but I ain?t know anything
Get it with my dog, had to get my weight up
Flip the K?s up
Turn around homie, lift your grades up
Never put my legs up
I?m working out, it?s working out
They wonder how

Hundred mouth, want a nigga gunnin til the sun is up
You already know that
All this money I be squaring eh
You already know that
All this money I be squaring eh
All this money I be squaring eh
Bring your love baby, I?mma bring my shine
Bring the drugs baby, I?mma bring my pain
You already know that
All this money I be squaring eh
All this money I be squaring eh
