

# The Sea and a Lifesaver

## Piebald

come crash on my shore and I know that I'll be here holding a lifesaver get an idea of the picture I'm painting  
and it's time for the ultimate bed time story the one where we both know the sound my ocean is green and your  
ocean is blue and it's not an ocean at all your ocean is a sea and you've sunk my battleship but the party's not  
over some crash on my shore again my port is ready for you we'll go swimming in your eyes the bed is sinking  
in the water and I know that I'll be there holding a lifesaver under the covers with that bedtime story this time  
we both know the taste watch the sparks from the lifesaver.
