Me

PFR

Angel voice love's charade
Run away On and on
Windowpane longer days
Can't hold you yetLosing my mind so beautifully
You turn around thats where i'll be
A million miles into reality
It's meant to be it's meant to beThere's a place in my mind
You and I on and on
Golden sun burns for you
MeLosing my mind so beautifully
You turn around thats where i'll be
A million miles into reality
It's meant to be it's meant to be
