Daddy's Little Defect

Sugarcult

I don't don't don't believe
I fell asleep talk's a waste
of time
the roller coaster that I rode with
her on Valentine's
And all I see I don't don't don't believe
And what you see is what you get with me
wasting all your time
Chorus:
Going all the way
lookin' so helpless everyday
daddy's little defect all the same
keep your secrets away from me
if you wanna be mine
So don't don't don't make a sound
your father's around to play with your head
your gift-wrapped guilt trip kisses
left you naked in your bed
And all I see I don't don't don't believe
And what you see is what you get with me
wasting all your time, wasting all your time

Chorus:
Going all the way
lookin' so helpless everyday
daddy's little defect all the same
keep your secrets away yeah yeah
going all the way
looking so helpless everyday
daddy's little defect all the same
keep your secrets away yeah yeah
Bridge:
Letting go, letting go again, letting go
Letting go when you're left with nothing
let go it'll be alright
doesn't matter cause you're free to waste
your life
I don't don't don't believe I fell asleep
talk's a waste of time

the roller coaster that I rode with her
wasting all your time, wasting all your time
Chorus(3x)
