To My Brother

Swim Deep

All I do is preach
I start to get the feeling
All I do is preach
I start to get the feeling
All I do is preach
I start to get the feeling
All I do is preachI start to get the feeling
All I do is preach to my brother
I'm pregnant with the meaning
So all I do is preach to my brotherEverything is amazing, act like a king
When I've got my mania, mania zen
All I can do is take after you
When I've got my mania, mania zen
The world grew tired of you
'Cause all the magic was in your head
So keep up with your soul
'Cause this is mania zenIf tomorrow doesn't know my name
Then tomorrow's gonna be my dayI start to get the feeling
All I do is preach to my brother
I start to get the feeling
All I do is preach to my brother
I start to get the feeling
All I do is preach to my brother
I'm pregnant with the meaning
So all I do is preach to my brotherThe birds flew higher than you
As all imagination fled
So keep up with your birds
'Cause this is mania zenIf tomorrow doesn't know my name
Then tomorrow's gonna be my dayI start to get the feeling
All I do is preach
I start to get the feeling
All I do is preach
