Stay With Me

BarlowGirl

Hope is getting through this night
And life is not dying in this fight
Begging You to deliver me
Confused why You won't take this pain from meMy steps never felt so hard
The end never looked so far
But if You won't take me out
Then please take me through thisStay with me so I won't leave
And make me see that this is not forever
'Cause all I need is Your love pulling meWhat is the reason for this night?
Is hope found in moments with no light?
Does strength grow in our greatest fears?
God, I pray something good will come from this painMy steps never felt so hard
The end never looked so far
But if You won't take me out
Then please take me through thisStay with me so I won't leave
And make me see that this is not forever
'Cause all I need is Your love pulling meWith You here I know I don't go alone
I am Yours and so through the fire I goMy steps never felt so hard
The end never looked so far
But if You won't take me out
Then please take me through thisStay with me so I won't leave
And make me see that this is not foreverStay with me so I won't leave
And make me see that this is not forever
'Cause all I need is Your love pulling me
