She Flys Me Away

Jason Derulo

She the type of girl to make you lazy.
Don't wanna do a thing,
I've been thinkin' crazy lately.
Like buying her a ring,
I used to be at the party with ladies gettin' down..
I used to play with them girls but I'm thinkin' different now,
Oh shes a star, she makes me fly..
Taking me places, I've never seen..
Two worlds apart, but she don't mind..
Cause she's got her wings..
Used to be a Romeo til' I found my Juliet
Now I wanna don't roam no more,
And all my love she gets..
She come from a different place,
I come from the other side..
Even though we not the same..
That girl she changed my life, oh my Juliet.
I finally found ya.. oh my Juliet.
I finally found ya.. my Juliet.
Can't wait to wake up in the morning..
Knowing she'll be around
Heaven should've sent a warning,
before sending me an angel down
I used to chase all the money, the cars and all them broads..
But I don't care for them things ever since she stole my heart,
Oh she's a star, she makes me fly..
Taking me places, I've never seen..
Two worlds apart, but she don't mind

Cause she's got her wings..
Used to be a Romeo til' I found my Juliet
Now I don't roam no more,
And all my love she gets..
She come from a different place,
I come from the other side..
Even though we not the same,
That girl she changed my life, oh my Juliet.
I finally found ya.. oh my Juliet.
I finally found ya.. my Juliet.

It's like a fairy tale .. that we all know so well,
And I'm so lucky that I found her, oh.
Its like a fairy tale.. that we all know so well,
And I'm so lucky that I found her, oh..
Used to be a Romeo til' I found my Juliet
Now I don't roam no more,
And all my love she gets..
She comes from a different place,
I come from the other side..
Even though we not the same..
That girl she changed my life, oh my Juliet.
I finally found ya.. oh my Juliet.
I finally found ya.. my Juliet.
My Juliet (x2)
I finally found my Juliet..
My Juliet (x2)
I finally found her..
