

Stoned

Blackie & The Rodeo Kings

Last night out in the dark
I was watching werewolves in the park, stoned
I used to run with that pack
Till they broke my balls and cracked my jack
Stoned, dropped down Just like the words from an old love letter
The scars I wear aren't that much better, when I'm stoned
Easy is how it used to feel
Like grease around the driving wheel, stoned These are the days worth living
Let them all bleed down
Everything's forgiven I used to love how the headlights shone
From the girls in cars on the lonely ones, getting stoned
We'd walk all night in that rain
We'd barely make it home again, stoned These are the days worth living
Let them all bleed down
Everything's forgiven And it all bleeds down
Yeah, it all bleeds down
And it all bleeds down Tattooed arms and old graffiti
Dream girls that fade and leave me, stoned
I carved my name in those old places
And old times and older faces, stoned I'm stoned, I'm stoned
Stoned, stoned And it all bleeds down
Yeah, it all bleeds down
And it all bleeds down
