# Cloak & Dagger

## Eight Legs

Occupation,
A classified infiltration,
A secret little occupation to always keep an eye on you.
Information,
I know that I can for the right nation,
So easy got your information gonna take you out on cue.I get high, so high till the break of the morning.
Nobody see me in the night.
Somehow it feels like a warning.
As I'm watching the rain, I get nothing but peace of mind,
Gettin' naked for your killing tonight.Undercover,
With shades and wake I am your lover.
Devoted to be undercover, you would never get my bluff.
I don't bother,
To live my life as if I'm another,
To blow your mind, I really don't bother, glad you got my life shake up.I get high, so high till the break of the morning.
Nobody see me in the night.
Somehow it feels like a warning.
As I'm watching the rain, I get nothing but peace of mind,
Gettin' naked for your killing tonight.Uhuu... cloak and dagger,
Uhuu... cloak and dagger in the night
Uhuu... cloak and dagger
Uhuu... cloak and dagger in the night
Uhuu... cloak and dagger
Uhuu... cloak and dagger in the night
Uhuu... cloak and dagger
Uhuu... cloak and dagger in the night
