

Don't Be Mad

Gina Cimmelli

When the day is done
and I lay in bed
I think of all those silly things I said
When it comes to you
I know that we do
I just don't know how much of it is true (much of it is true)
but i knew i my head
i thought i knew my heart
It's just sometimes i cant tell them apart
and with that said
I'll start to dream
oh boy Im' not as bad i as i seem
Don't be mad i wrote a song about you
Don't be mad
Don't be sad i couldnt live without you
When the sun goes up
I rub my eyes
too much to do
no time for goodbyes
button up my skirt
and comb my hair
make it pink
i dont got to care
but you made me laugh oh you made me smile
you simply made me get lost for a while
and you wanna know why i need you near
boy cause losing you is my greatest fear
dont be made i wrote a song about yo
dont be mad
and dont be sad i couldnt live without you
you were the one i could look to the end
you were a lover
but also a friend
you made me sad til' the tears couldnt fall
now do i come (now here we are) guess thats all
dont be mad i wrote a song about you
dont be mad
dont be sad i couldnt live without you
dont

dont be mad i wrote a song about you
dont be mad
dont be sad i couldnt live without you
oh
oh
oh
