

On a Night Like This (Bini and Martini Dub Mix)

Kylie Minogue

Don't say it's like a fantasy
When you know this is how it should be
You kiss me
I'm falling can you hear me calling
You touch me, I want you
Feels like I've always known you On a night like this
I want to stay forever (stay forever)
On a night like this
Just want to be together
On a night like this (On a, on a, on, on a, on a, on)
(On a, on a, on, on a, on a, on)
Now I'm getting closer to you
Hold me, I just can't be without you
You kiss me, I'm falling
It's your name I'm calling
You touch me, I want you
Feels like I've always known you On a night like this
I want to stay forever (stay forever)
On a night like this
Just want to be together
On a night like this Seems like I've known you a lifetime (lifetime)
Now it's time to make you mine
On a night like this
On a night like this, oh (You kiss me, I'm falling)
(You touch me) On a night like this
Just want to be together On a night like this
I want to stay forever (stay forever)
On a night like this
Just want to be together
On a night like this (You kiss me, I'm falling)
(You touch me) On a night like this
(You kiss me, I'm falling)
(You touch me) On a night like this
(You kiss me, I'm falling)
(You touch me)
On a night like this
