In League With Satan

Six Feet Under

[Incomprehensible]I'm in league with Satan
I was raised in hell
I walk the streets of Salem
Amongst the living deadI need no one to tell me
What's wrong or right
Drink the blood of children
Stalk my prey at nightLook out, beware
When the full moon's high an' bright
In every way I'm there
In every shadow in the nightEvil in league with Satan
Evil in league with SatanI'm in league with Satan
Obey his commands
With the goat of Mendes
Sitting at his left handI'm in league with Satan
I love the dead
No one prayed for Sodom
As the people fledLook out, beware
When the full moon's high an' bright
In every way I'm there
In every shadow in the nightEvil in league with Satan
Evil in league with SatanI'm in league with Satan
I am the masters own
I drink the juice of women
As they lie aloneI'm in league with Satan
I bear the devils mark
Kill the new born baby
Tear the infants fleshLook out, beware
When the full moon's high an' bright
In every way I'm there
In every shadow in the nightEvil in league with Satan
Evil in league with Satan[Incomprehensible]
