

Slower Than Guns

Iron Butterfly

Can you feel the manmade mist
As it starts to twist your lungs?
Slower than guns Breathe deep
As you enter sleep
Fell secure it's all around you Can you see the golden brown
As it circles round your town
Town coming down Smokin' stacks on industry's backs
In this land of a cigarette pack
Feel secure they're all around you Miles and miles of gasoline fumes
In the air like transparent tombs
Feel secure they're all around you DDT making bugs relax
They're in your food like poison tacks
How about that Eat well they're all within you
Town coming down
