

Priceless

Ne-yo

we need to figure it out, ok?
you need to figure it out
how come when it's just you and me alone everything is so lovely?
you look in my eyes, hold my hand and squeeze me for real when you hug me
but boy, when your boys come around then it's goodbye lovey dovey
hello too rude, you're with an attitude like 'scram, ya bug me'
care to explain,
this sudden change?
'cause i refuse to be reason for you to be ashamed
you need to let me know
what's it going to be
I'm priceless and that's how you should be treating me
you need to show me love
in front of everybody
I'm priceless baby
you better figure it out
you better figure it out
or leave me alone
or you can leave me alone
can't figure it out?
you better figure it out
or leave me alone
you figure it out or leave me alone
you better figure it out
or you leave me alone
you better figure it out
or you can leave me alone
everyone else can see, how sweet it would be to be with me
they realize, among other guys, you're the cause of much envy
but you act like you don't know
i don't exist to you then
i just don't see
is than anyone would bare to be happy to be a replacement
so please explain
this sudden change
'cause i refuse to be reason for you to feel ashamed
you need to let me know
what's it going to be
I'm priceless and thats how you should be treating me

you need to show me love
in front of everybody
i'm priceless baby
you better figure it out
you better figure it out
or leave me alone
or you leave me alone
you better figure it out
or leave me alone
you figure it out or leave me alone
you need to let me know
what's it going to be
and why's this
and i thought you should be treating me
you need to show me love
in front of everybody
why's this baby?
you better figure it out
you better figure it out
or leave me alone
or you leave me alone
you better figure it out
or leave me alone
you figure it out or leave me alone
i don't think i'm asking for much
baby recognize just what you've got
treat me like the princess i am
weather we'll be by ourselves or not
i don't think i'm asking for much
baby recognize just what you've got
treat me like the princess i am
weather we'll be by ourselves or not
you need to let me know what it's gonna be
i'm priceless and thats how you should be treating me
you need to show me love
in front of everybody
im priceless baby
you better figure it out
you better figure it out
or leave me alone
or you leave me alone
you better figure it out
or leave me alone
you figure it out or leave me alone
you need to let me know

what's it going to be
i'm priceless
and thats how you should be treating me
you need to show me love
in front of everybody
