

See With Different Eyes

October Project

There's a child standing
With a broken string
In a passageway with no return
Bridges burn, waters rise
 Turn around
 Turn around
And see with different eyes There's a woman standing
 In a golden ring
 Full of idols she no longer knows
 Circles close on broken ties
 Turn around
 Turn around
 And see with different eyes
 I know about the emptiness inside
 I know about the loneliness you hide
 I wanted you to hurt the most
 I wanted you
 To hold me closer There's an actor standing
 With a painted face
 In a dark and unfamiliar play
 Tear away an old disguise
 Turn around
 Turn around
And see with different eyes I know about the emptiness inside
 I know about the loneliness you hide
 I wanted you to hurt the most
 I wanted you
 To hold me closer
 Finding answers in the pattern
 Pieces of the whole
 Maybe love is all that matters
All you need to know There's a figure standing
 In an empty field
 Setting flowers gently on a stone
 Keep the truth, leave the lies
 Turn around
 Turn around
 And see with different eyes
