

King Or Queen

Kylie Minogue

You stand around the edge
Looking tip-top but you forget
That when I look at you
Baby, I see so much more you could do
Oh, come to me
You'd look good in company
And your wish is my command
All you got to do is take my hand
Come to me, come to me
Don't you understand
That body was made for dancing
So follow me down this way
Come on now, twist it, turn it, turn it
Push it, burn it, burn it
Made for dancing
Totally designed to shake
So come on now, twist it, turn it, turn it
Push it, burn it, burn it
Oh, twist up, flip the part
Tie your name up on my heart
Don't be so shy about it
Don't get uptight about it
Move close, can't you see?
You know you're gonna feel good next to me
'Cause oh, oh
Don't you know?
That body was made for dancing
So follow me down this way
So come on now, twist it, turn it, turn it
Push it, burn it, burn it
Made for dancing
Totally designed to shake
So come on now, twist it, turn it, turn it
Push it, burn it, burn it
Dance-floor royalty
Famous on the disco scene
Royalty [Incomprehensible]
Be my king or queen
King or queen

Famous on the disco scene
Dance-floor royalty
That's what you are to me
I salute you
That body was made for dancing
So follow me down this way
Come on now, twist it, turn it, turn it
Push it, burn it, burn it
Made for dancing
Totally designed to shake
So come on now, twist it, turn it, turn it
Push it, burn it, burn it
Dance-floor royalty
Famous on the disco scene
Royalty [Incomprehensible]
Be my king or queen
