California

John Mayall

Goin' back to California
So many good things around
Don't wanna leave California
The sun seems to never go downSome people may treat you ugly
Some treat you beautiful too
That's the way life is all over
So look for the good things for youCalifornia, so many things to be free
California, that's where I wanna be
California, so many place for home
California, I'll be back there be for long
I'll be back there be for long
I'll be back there be for longCalifornia, that's where I wanna be
California, I'll be back there for long
I'll be back there be for long
I'll be back there for long
I'll be back there for long
