

# The Feelgood Factor

## Dr. Feelgood

(dave bronze/kevin morris)When you're feeling down and you're all alone

There's a little lady you can telephone

When she knocks on your door makes your heart stand still

You give her the money, she gives you the thrillShe got what you want

She got what you need

It's the feelgood factor and it's guaranteedFeelgood factor

She got the feelgood factor

Feelgood factorWhatever you want, she don't care

She got the stock and she'll give you a share

It's a take-over bid your deposit is due

And if your credit is good she'll play footshs with youShe'll take you round the world and bring you back again

Deals in pounds or dollars or marks or yen

She goes in at the bottom and out at the top

And she keeps on going till your profits dropShe got what you want

She got what you need

It's the feelgood factor and it's guaranteedFeelgood factor

She got the feelgood factor

Feelgood factor...
