Da Da Dam

Da Da Dam

Peter is smart, he knows each European country by heart
He likes to sit under an apple tree on his yard
And wait for an apple to fallWhen Peter is nine,
His teacher tells him that this planet is dying
That someone needs to put an end to it all
And so when Peter comes home
He tells his mom:I'm going out in the world to save our planet
And I ain't comin back until she's saved
I'll walk my way to see the King and parliament
If they don't help I'll do it by myselfI don't wanna be
Da da dam da da dam
Da da da da da da da da damPeter is young
He tries to talk but no one listens to him
Everybody's busy living and dying
Not thinking bout what they're doingBut look at the boy who
Went out in the world to save our planetAnd he ain't coming back until she's saved
He walked his way to see the King and parliament
But they all turned their heads and walked awaySingin'Da da dam, da da dam
Da da da da da da da da dam
Da da dam, da da dam
Da da da da da da da da damAnd now I'm going out in the world to save our planet
And I ain't comin back until she's saved
I'm walkin in the footsteps that young Peter made
And everybody is welcome to join
And sing with meDa da dam, da da dam
Da da da da da da, da da dam
Da da dam, da da dam
Da da da da da da, da da dam
