

# I Love Music

Andrew W.K.

I want you to remember all the things that i said  
i want you to remember you're not better off dead  
you only have a minute to go back in the line  
to bring it on home and make up your mind i want you to remember what you came here to do  
i want you to remember that i'm talking to you i love music and i love to feel  
i love to get through i love to get through i love music and i love to yell in my soul i am running getting nearer for  
many years of only hope you'd never leave you are my faith you are my friend  
you are my family and i am coming so we can live for ever more in total love you're in my soul (you're in my  
soul)  
and i am running (and i am running)  
getting nearer (i am always getting nearer) for many years (for many years)  
of only hope (of only hope)  
you'd never leave  
(for many years i hoped you'd never leave) you are my faith (my faith)  
you are my friend (my friend)  
you are my family (my family)  
and i am coming (and i am coming) so we can live (so we can live)  
for ever more (for ever more)  
in total love  
(so we can live forever more)  
in total love i'm not about to die i'm not a setting sun  
i look into your eyes and i see what has begun i'm not about to die (this time we will)  
(this time we will unite)  
i'm not a setting sun  
(this time we will not)  
(this time we will not lose you)  
i look into your eyes  
(we look into your eyes)  
(we look into your eyes and)  
and see what has begun  
(and see what)  
(what has)  
(and see the world is....) in my soul  
i am running  
getting nearer  
(i am always getting closer) for many years  
of only hope  
you'd never leave  
(for many years i hoped you'd never leave) you are my faith

you are my friend  
you are my family  
and i am comingso we an live  
for ever more  
in total loveso we can be there when vicotry strikes again
