

# Here I Am, There You Go

## Splender

So now you say dirty things that you regret

Try to breathe and relax and get over it

This I know, this I know And now you look and you digging a deep hole

And every word that you say is regrettable

This I know, this I know But here I am, there you go

Time's been changing you more than you'd ever know Here I am, there you go

I've been waiting for more than you'd ever know You can pretend that you don't need a reason

For all the calls on the phone that would never end

This I know, this I know So now you're cold and you're tired and raspy

Try to wave with the hand as you scratch me

This I know, this I know But here I am

There you go

Time's been changing you more than you'd ever know Here I am, letting go

I've been waiting for more than you'd ever know We'll last, stay here while you're not there, bear with me,  
please

Day after day I'll get my way, bear with me So now you stare at the face in the photograph

You want to scream but you can't get a witness

This I love, this I love But here I am, there you go

Time's been changing you more than you'd ever know Here I am, I'll let you go

I've been waiting for more than, more than you know

But I know, but I know More than you know

Here I am, I know, well I know

Here I am, I know, yeah yeah
