

# Close to Me

## The Summer Set

We're gonna shake, shake  
til the break of dawn  
til our lungs give out and our voices gone  
we're gonna shake, shake  
til the morning comes  
so we can make the most, the most of what we got

strike up the band, we'll play a little louder  
take the stage, they're already here  
light this town from the bottom up, until they wake up  
wake up

'cause i've been rolling in your bed all night  
and i know, you're more than they see  
and i can tell it'll be alright  
and you know, you still look good to me

tell me what do you want?  
tell me what do you want?

get close to me  
i wanna get you on your feet  
and moving with me  
i've been waiting on you  
and i'll stand still  
until you come around  
oh, you come around

---
