

# Enchanted Illusion

## A Telemetry

all kept inside  
about to burst  
no one knew  
it would end the worst

escape the realm  
you made your flight  
dreams  
will they show my plight

it's all or nothing  
these games we play

enchanted illusions  
they trick you every time  
enchanted illusions  
makes you lose your mind

bought and sold  
a prime condition  
left to stand  
the act was missing

to borrow hope  
and gage a climb  
reach  
over walls we find

it's such a wonder  
how much we sway

enchanted illusions  
they trick you every time  
enchanted illusions  
makes you lose your mind

you tire fast  
pouring out  
risk it all and lose much more

excuses  
at the end  
the stage set  
you're broken again

enchanted illusions  
they trick you every time  
enchanted illusions  
makes you lose your mind
