Find Me

Christina Grimmie

I know somethings bound to change
and I know I have been to blame
Watching the way this era of madness wont come and spread no shame
cause ive been waiting watching and praying for you to go insane.
ive been holding out come on out and find me cuz ive been waiting my turn
pressures on and now your heart is beating
to the sound of my name and i say
find me find me come on out and find me
find me find me
Dont defy it burning the thought of
calling back your name
maybe its not different because i see some play you did
look at the voices something one and take one
back where youre insecure
so now your crying open your mind to hide what your looking for
okay hold me now and come on out and find me
cause ive been waiting my turn

pressures on and now your heart is beating so the sound of my name
and i say , find me find me come on out and find me
find me find me
with your love now
this is your smile oh need or want to get you
anywhere anymore anymore
ANYMOREEE hold me now come on out and find me
cuz ive been waiting my turn
with your love now your heart is beating
sos the sound of my name
find me find me
come on out and find me
find me find me
oooo
hold me now come on out and find me
cuz ive been waiting my turn
pressures on and now your heart is beating
to the sound of my name come on out and find me
