

# Young and Tough

## Y&T

Here she comes like a heart attack  
The way she looks could kill ya, all dressed in black  
With her lips on fire and a wild hair  
She knows the boys are looking but she don't care  
She's way too smart for an empty lie  
Gotta let her know, she's my kind  
She's young and tough  
(She's young)  
She's got the moves, she's got the stuff  
She's young and tough  
(So young)  
You bet I want it  
Some like to talk, some fantasize  
They call her cheap and easy but that's a lie  
She's got class, got style  
She got on me by a city mile  
She's way too fine for an empty lie  
Gotta let her know, she's my kind  
She's young and tough  
(She's young)  
She's got the moves, she's got the stuff  
She's young and tough  
(So young)  
You bet I want it  
Here she comes like a heart attack  
The way she looks could kill ya, all dressed in black  
With her lips on fire and a wild hair  
She knows the boys are looking but she don't care  
She's way too fine for an empty lie  
Gotta let her know, she's my kind  
She's young and tough  
(She's young)  
She's got the moves, she's got the stuff  
She's young and tough  
(So young)  
Baby, baby, baby, do your stuff  
So young, young and so tough  
(So young)  
You've got the moves, you've got the stuff  
Well, she's young so young and tough  
(She's young)  
Baby, baby, baby, do your stuff  
You're so young, young and so tough  
(So young)  
You've got the moves  
Oh, baby, baby, baby  
Young and young  
You bet I want it  
I told you I was bad, woman
