

# Broken Wing

## Gorefest

Here comes the whore with the broken wing  
With grace she comes like an angel that refuses to fly  
She wears the crown of the wrong  
Here come the whore forever Here comes the whore with the broken wing  
All her pain will be yours  
Multiplied by a thousand times  
And served with the finger Here comes the whore forever  
You'll never be yourself again  
Here comes the whore forever  
And she will be forever, you can't save yourself  
You can't save yourself, you can't save yourself Start your mourning on your night of decay  
When all your children are crying  
You had it coming, so let down your head  
Now that your old world is dying Here comes the whore forever  
You'll never be yourself again  
Here comes the whore forever  
And she will be forever, you can't save yourself  
You can't save yourself, you can't save yourself  
Here comes the whore forever Here comes the whore forever  
And she'll be yours forever, you can't save yourself  
You can't save yourself, you can't save yourself  
You can't save yourself,
