

# Digging Shelters

[Neil Halstead](#)

Computer, whats the point in this?  
You do all the thinking where we -  
Just diggin; shelters in the snow -  
Build a house of dream and domino I know its fallen down  
Got my headphones on, I won't hear a sound  
I know its all broke down  
Eyes out on the road but no-one comes along,  
when you want'em to Let your hair hang long  
Yeah that old north wind is blowing through  
these cracked up boards  
And you wont feel so strong  
Eyes on the street, yeah its closing time, again Computer, whats the point in this?  
You do all the thinking where we -  
Just diggin' shelters in the snow -  
Build a house of dream and domino
