

# This Town Is Ours

## Deaf Havana

I'm gonna tell you right now  
We're gonna make it in this town  
And when our eyes are heavy  
We're gonna keep it steady

When are eyes are set on the above  
When the push comes to shove  
We have such divine inhibitions  
We're gonna tell you and you will listen

Well for what it's worth  
It sure as Hell ain't worth a lot (x2)

We're gonna keep sleeping on these rooftops  
And you'll never get us down, and you'll never get me down  
We're gonna keep singing all our own songs  
And you'll never get us down, and you'll never get me down

We're gonna stay like this forever  
Because the more friends that you have the better  
I'm gonna let you know the whole truth  
That it ain't worth nothing without the proof

Your face was all so terribly priceless  
And I'm ever so sorry I missed it  
I know you didn't mean it  
But I'll settle for a smile as long as you clean it

And for what it's worth  
It sure as Hell ain't worth a lot (x2)

We're gonna keep sleeping on these rooftops  
And you'll never get us down, and you'll never get me down  
We're gonna keep singing all our own songs  
And you'll never get us down, and you'll never get me down

Get me down  
You'll never get me down  
Get me down

We're gonna keep singing all our own songs  
Our own songs  
We're gonna keep singing all our own songs

Yeah!!

We're gonna keep sleeping on these rooftops  
And you'll never get us down, and you'll never get me down  
We're gonna keep singing all our own songs  
And you'll never get us down, and you'll never get me down

You'll never get me down  
And you'll never get us down, and you'll never get me down  
We're gonna keep singing all our own songs  
And you'll never get us down, and you'll never get me down

Get me down

---
