

She Made My Day

The Shorts

She stood there waiting in the moonlight
for the number nineteen bus
I hoped that things would come out all right
I didnt wanna make a fussI took the only empty seat there
Just, so it happened, next to her
She turned and swept me with her long dark hair
I wondered what her feelings wereThen we swerved a fallen tree
she ended up on top of meJust wanna say-ay-ay-ay-ay
she made my day
Its like a dream, more like a scene out of a movie
She makes me feel so good in every single way
Just wanna say sweet girl oh how you made my day
oh yeahI booked a quiet cosy table
we relaxed and drank some wine
then she asked if I was able
to walk her home and I said: fineI pressed the elevator button
I acted very calm and cool
she turned to me all of a sudden
I hope I didnt look a foolThe lights went out, what could it be?
and then she moved on up to meJust wanna say-ay-ay-ay-ay
she made my day
Its like a dream, more like a scene out of a movie
She makes me feel so good in every single way
Just wanna say sweet girl how you made my day
a-haI phoned, she said: Come round on Sunday
She looked an angel of delight
I wanted to stay there till Monday
and had a feeling, I just mightShe had the record player playing
the lights were low, she pulled me near
I held her then we started swaying
Oh, was I really, really here?And then we kissed so passionately
Oh, I said the one that's just for meJust wanna say-ay-ay-ay-ay
she made my day
Its like a dream, more like a scene out of a movie
She makes me feel so good in every single way
Just wanna say sweet girl how you made my day
You made my day, ohShe makes me feel so good in every single way
Ooh, do-do-do-do-doJust wanna say sweet girl oh how you made my day
