

Why Ask Why

Tamia

Why even worry 'bout it, baby?
Why even waste your time a day
Can't believe that would think that
I would do you that way
If you say it on me like you know me
You should know that I'm your one and only
Baby, you don't have to question me
'Cause I'm in love with you Why would you ever worry 'bout it?
I wouldn't wanna be without you
Why would you ever doubt the love that I have for you?
Baby, why ask why
Would you ever worry 'bout it?
I wouldn't wanna be without you
Why would you ever doubt the love that I have for you?
Baby, why ask why? You gotta know the way I feel about you
If you don't, I'm gonna make it clear
No matter what they say about it, boy
I'm gonna be right here, oh baby
I promise that I'll never do you wrong
I promise you're the love of my life
I'm tellin' you that
I will forever love and treat you right Why would you ever worry 'bout it?
I wouldn't wanna be without you
Why would you ever doubt the love that I have for you?
Baby, why ask why?
Would you ever worry 'bout it?
I wouldn't wanna be without you
Why would you ever doubt the love that I have for you
Baby, why ask why? We've been together long enough to see
That our love is real and right now I'm telling you
Just how I'm feeling so you can be for sure
Don't have to ask no more, you'll know that my heart is all yours Why would you ever worry 'bout it?
I wouldn't wanna be without you
Why would you ever doubt the love that I have for you?
Baby, why ask why?
Would you ever worry 'bout it?
I wouldn't wanna be without you
Why would you ever doubt the love that I have for you?
Baby, why ask why? I love you, baby, I want you, oh baby, I need you

So don't you doubt my love for you
I love you, baby, I want you, oh baby, I need you
So don't you doubt my love for you
