

El Sol

Souleye

Verse 1

Donâ€™t be afraid little child that your daddy left away /
Yes, heâ€™s gonna be there for you /
When you finally make it to those gates /
Like a turtle in a race, gotta set a pace /
This is not a phase, in and out another day /
To find a possibility /
Problem solving /
What a better way /
You can hear them calling /
Listen to your heart, learn what it sayâ€™s /
Look in to the stars /
You can see your father smiling /
And I know that itâ€™s hard though /
But no matter how hard /
You will never be alone /
You will never be alone /

Chorus

And while your dreaming youâ€™ll see him /
And heâ€™ll be all right /
Liven in a paradise /
Father, son, now they eye to eye /
And when you hold him youâ€™ll know /
That we all become one /
Living in the afterlife /
And while your dreaming youâ€™ll see him /
And heâ€™ll be all right /
Liven in a paradise /
Father, son, now they eye to eye /

Verse 2

I could talk about so many things /
First the importance of a family /
You and me, each we can plant a seed /
Together team us them yea we all the same /
They separating the sacred /
An sabotaging the love in /
They gonna try to push us down /
And if we fall then where closer to the ground /
Which means we can turn right around /
I got a heartfelt feeling for those lost souls /
Living in a house-hold watching TV /
While the beauty outside slowly passes bye /
But then again you and I can find that /
Heavenly contact /
An earthly contract /
There's water in the river and it feeds the army /
Protects us, holds us, and keeps us holy /
The world keeps spinning at a fast speed /
Don't be afraid little child you are saved /
Little child you are saved /

Chorus

And while your dreaming you'll see him /
And he'll be all right /
Liven in a paradise /
Father, son, now they eye to eye /
And when you hold him you'll know /
That we all become one /
Living in the afterlife /
And while your dreaming you'll see him /
And he'll be all right /
Liven in a paradise /
Father, son, now they eye to eye /
And when you hold him you'll know /
That we all become one /
Living in the afterlife /
Come on!
