

Makin' Love

Kiss

I just hate when
The girl says wait
I really want her
By my side, don't hesitate I really want her by my side
The whole night through
Do the things that we wanna do
Come on, baby, don't leave me sad
'Cause you're good lookin', the best I've had Makin' love, love, love
All night long
Love, love, love
All night, oh all night
All night long Red light, green light
Don't say no
I really want her
She says, "Stop"
Go, go, go I really want her by my side
The whole night through
Do the things I wanna do
Come on, baby, don't leave me sad
You're good lookin' Love, love, love
All night long
Makin' love, love, love
All night Love, love, makin' love
All night long
Love, love, love
All night long Makin' love, love, love
All night long
Love all night Makin' love, yeah
