Radiation

The Epoxies

There's radiation in my tv set (it's realigning you)
I guess I know that but it hasn't got me yet
(How do you know?)
I know, I know, I know, I know
I know, I know, I know, I knowDisinformation on my tv set (it's reprogramming you)
They try, it's true but I can hear beyond the noise and see the truth
I know, I know, I know, I know
(How can you know?)
I know, I know, I know, I know, I know, I know
I know I know the difference somehow
If I was being rearranged
I'm sure if have been reprogrammed
Something somehow surely would seem strange
There's radiationThere's radiation in my tv set (it's realigning you)
I guess I know that but it hasn't got me yet
(You know it will)
Disinformation on my tv set (it's reprogramming you)
They try, it's true but I can hear beyond the noise and see the truth
I know, I know, I know, I know
(How do you know?)
I know, I know, I know, I know
(How do you know?)
I know, I know, I know, I know
(How do you know?)
I know, I know, I know, I know, I know, I know,
I know
I know
I know
I know
I know
I know
