

Collecting Junk with Temmie (from "Undertale")

[Ben Briggs](#)

HOI I'm temmie and this is my friend temmie and temmie and temmie and my business partner bob. I gotta save for colleg so I'm here to take your items but if you've got some glasses my reaction is I'm going to buy them. Ok I'll control my spending. My bank account is running out and transactions are still pending. I've gotta save for colleg so I'm here to take your items but see you've have got to do but I just got to try it. I love collecting junk from humans. It's tuff to be responsible. Such a cute I can't compute the human. Schools cool but it may be optional. I drink coffee to processnate officintly. Ignoring deadlines like I got to be leezerly. I'll maybe finish something eventually but if you've got some nicecream I'll pay any price. Instant noodles, hotdogs, spider cider, I will be your buyer. Dog salad, toy knife, cowboy hat I need that! Used bandage, pumpkin rings, gimme gimme everything. Bicycle, cinnamon bunny, just shut-up and take my money. I love collecting junk from humans. It's tuff to be responsible. Such a cute I can't compute the human. Schools cool but may be optional. I must confess I'm impressed by your determination. You've come back so much you need a vacation. All these items your finding in this one location got me broke and wondering if you've got me facing starvation. Can you give me a donation for my graduation my wallets empty and I'm thinking I got the wrong vocation. I got some armor in the back if that's what you're about sold out I'll go to school and make you proud. I love collecting junk from humans. It's tuff to be responsible. Such a cute I can't compute the human. Schools cool but may be optional. I love collecting junk from humans. It's tuff to be responsible. Such a cute I can't compute the human. Schools cool but may be optional.
