

Stay

Brian McKnight

You know you got me open
And it's crazy peekin' at you sittin' in my ride
You better not be jivin'
'Cause I been waitin' and later you'll be at the crib tonight
And I never wanted no one else like this in my life
So, girl, you know I want it baby
Why don't you stay?
Girl, you know I need it baby
Why don't you stay? Girl, I got's to have it baby
Why don't you stay?
Girl, you got me feelin' baby
Why don't you stay? Been anticipating, contemplating
What you might be thinkin' behind those eyes?
Do you want me like I'm wantin' you?
Tell the truth, this just feels so right
And I never wanted no one else like this in my life
So, girl, you know I want
it baby
Why don't you stay?
Girl, you know I need it baby
Why don't you stay? Girl, I got's to have it baby
Why don't you stay?
Girl, you got me feelin' baby
Why don't you stay? No pressure girl, you are my world
I thought of everything
So you don't have to worry at all
The candlelight, the mood is right
It's time, let's get it on
Girl, you know I want it baby
Why don't you stay?
Girl, you know I need it baby
Why don't you stay? Girl, I got's to have it baby
Why don't you stay?
Girl, you got me feelin' baby
Why don't you stay?
