Sing Your Heart Out (Acoustic)

The Trews

leave the ghosts that are holding you back
bury them in a paper bag
put em down in an unmarked graveyou'll be damned when your mother finds out
you're not the girl that she once knew now
your gonna finally find your own wayyou deserve the best, you should expect nothing less
we could live and bless, if you just say yes
and on a night like this, life could change with a kiss
if you don't second guess, and you go with itand you sing your heart out, sing your heart out
drive them blues away
sing your heart out, sing your heart out
you got more to sayi got a car and some money to spend
we could run with the best of them
if you let me steal you awayfrom the clowns with the small town views
everyone thinking they know you
but we know that there's just no waysing your heart out, sing your heart out
drive them blues away
sing your heart out, sing your heart out
you got more to sayyou're my motorcycle mama, and i love you like no other
meet me out by the old highwaythink of me as a helping hand
nothing more nothing less than that
we could sing all your hardships awayyou deserve the best, you should expect nothing less
we could live and bless, if you just say yes
on a night like this life could change you with a kiss
if you don't second guess, and you go with itand you sing your heart out, sing your heart out
drive them blues away
sing your heart out, sing your heart out
you got more to say (x2)you're my motorcycle mama, and i love you like no other
meet me out by the old highway
