Helen

Kyshera

Hey Helen, your eyes shine and your beautiful
So I just had to come and sing to you
And Helen, made me feel alive last night just to meet you
So this is the best I can bring to you'Cause you sent me singing through the woods last night
You sent me singing through the woods feeling all right
You sent me singing through the woods last night
You sent me singing, a happy singing boy because of youAnd Helen, I don't know you, you don't know me
But what can I say? I just like you
And Helen, I'm just trying to bring to you
All the things I would love for you to bring to me too'Cause you sent me singing through the woods last night
You sent me singing through the woods feeling all right
You sent me singing through the woods last night
You sent me singing, a happy singing boy because of youHey Helen, there's people all 'round this country
Not taking risks or being all we can be
Start yellin' that you want to step out of the door with me
And really take the chance of being free and I will to, yeah'Cause you sent me singing through the woods last night
You sent me singing through the woods feeling all right
You sent me singing through the woods last night
You sent me singing, a happy singing boy because of youSomeone to make you remember
Those dreams you dreamed in December
I feel the life coming through ya
And it made me want to pursue yaI feel alive, I feel alive, I feel alive, I feel alive
And it makes me want to hold to ya'Cause you sent me singing through the woods last night
You sent me singing through the woods feeling all right
You sent me singing through the woods last night
You sent me singing, a happy singing boy because of youFeels like, feels like coming home
Feels like, feels like coming home
Feels like, feels like coming home
