

Watch Me Go

Twin Shadow

I put her in my head in the tiniest framework
In the space left for me where you neck meets your shoulder
We're used
Who has the mask? Don't make me laugh
It's always been youLike the ocean meets the rain, we've been one the same
When our bodies touch again
[?], can't be tamed
And they come back again
I take a gun and do the sameJust watch me go
Insane
Just watch me go
InsaneFall at your feet, that don't make me a soldier
And only in sheets will I follow your order
Over-used
Who ties me up, never enough
It's always been youJust watch me go
Insane
Just watch me go
InsaneLike the ocean meets the rain, we've been one the same
When our bodies touch again
[?], can't be tamed
And they come back again
I take a gun and do the sameJust watch me
Just watch me
Just watch me
Just watch me
