

# Groove of Christmas

[Ali Lohan](#)

Let's get in the mood for Christmas  
Lets get in the groove of Christmas  
I cant wait its almost Christmas (A time so dear)  
So much fun to wake up on Christmas  
Time to celebrate its Christmas (spread love and cheer)Gather round everyone Christmas is getting near  
Its that time when loves in the air  
Had to wait through the year for this time to be here  
Its that time when everyone caresLets get in the groove of Christmas (Christmas time)  
I cant wait its almost Christmas (a time so dear)  
So much fun to wake on Christmas day (cause its that time)  
Time to celebrate its Christmas (spread love and cheer)Positive energy as we laugh cheerfully having fun with  
family and friends  
(come on lets get in to it) Hanging lights on the tree  
Hang a Santa Clause for me let the Christmas spirit beginLets get in the groove of Christmas (Christmas time)  
I cant wait its almost Christmas (a time so dear)  
So much fun to wake on Christmas day (cause its that time)  
Time to celebrate its Christmas (spread love and cheer) on Christmas yeah  
Come on lets get into it we've got to get into it  
Lets get in the mood foe Christmas  
Hanging the Christmas lights lets make ginger bread cookies tonight  
Lets get in the mood for Christmas
