Hotel California

Nerf Herder

She works all day at the Burger King
Gettin' greasy for the dollars
Promoted to fries
But there's tears in her eyes
It's not the grease or the pickles that upset herCalifornia
Hotel California
California
Hotel California
California
Hotel CaliforniaYou can't stab the beastA look of disgust on her pimple-marked face
No amount of mayonnaise can cover
She frowns at the kill, charbroilling on the grill
Singin
"Death for no reason, death for no reason is murder"California
Hotel California
California
Hotel California
California
Hotel CaliforniaShe can't stand the beast
She stabs him with her steely knife
But she just can't kill the beastCalifornia...
