

# Custom Machine

## Beach Boys

Check my custom machine  
Well, she's metal flake blue with a Corvette mill  
Check my custom machine  
And they say it looks better when she's standin' still  
Check my custom machine  
When I step on the gas she goes  
I'll let you look but don't touch my custom machine  
Well, with Naugahyde bucket seats in front and back  
Check my custom machine  
Everything is chrome, man, even my jack  
Check my custom machine  
When I step on the gas she goes  
I'll let you look but don't touch my custom machine  
With stereophonic speaker set with vibrasonic sound  
Check my custom machine  
Magnesium spokes, it stands an inch off the ground  
Check my custom machine  
When I step on the gas she goes  
I'll let you look but don't touch my custom machine
