

# Change

Vanessa Amorosi

Bring in the change  
(Bring in the change)  
Bring in the change  
Let yourself be in it  
Cos soon youre gonna feel the change There aint no way around it  
Everything comes to an end  
There aint no book to prove it  
Your second chance is comin in Before you know it the moment is gone  
Itll be too late before too long  
Raise your head and show that youre strong  
Cos ya gotta, gotta, gotta keep on movin on Bring in the change  
(Bring in the change)  
Dont ever allow it to fail  
As long as the music remains the same  
(Bring in the change)  
Let yourself be in it  
'Cos soon youre gonna feel the change  
Bring in the change Growing older and wiser  
With the knowledge to do better things  
The more of us, the better and tighter  
When we set about changing the scene Every day you take another step  
Just how crazy can it get  
Before you know it the moment is gone  
So ya gotta, gotta, gotta keep on movin on Bring in the change  
(Bring in the change)  
Dont ever allow it to fail  
As long as the music remains the same  
(Bring in the change)  
Let yourself be in it  
'Cos soon youre gonna feel the change  
(Change, change, change) Change, change, change  
Change, change, change Dont ever allow it to fail, oh, yeah  
Soon you gonna feel the change  
Let yourself be in it, can you feel it? Before you know it the moment is gone  
Itll be too late before too long  
Raise your head and show that youre strong  
Cos ya gotta, gotta, gotta keep a movin on Bring in the change  
(Bring in the change)  
Dont ever allow it to fail

As long as the music remains the same  
(Bring in the change)  
Let yourself be in it  
'Cos soon youre gonna feel theChange, change, change  
(Bring in the change)  
Change, change, change  
As long as the music remains the same  
(Bring in the change)  
Let yourself be in it  
Cos soon youre gonna feel the change
