

I Don't Wanna Know

3 Doors Down

I say a sad goodbye
And then I move on
Well baby my heart goes blind whenever you're gone
And I know that you'll come back
And that gets me by
But holding you in my arms
Oh well that gets me high And I hope that this is never ending
I just wanna see how it unfolds
If you're ever gonna go, then never let it show
'Cause I don't wanna know
Oh just say you'll stand right here forever
Through every high and through every low
If you're ever gonna go, then never let it show
'Cause I don't wanna know And I don't care where you hide
Or secrets you keep
Well baby if this love's a knife
Uh then bury it deep
'Cause you know my heart would break if you said goodbye
So if you don't feel the same
Then just tell me a lie And I hope that this is never ending
I just wanna see how it unfolds
If you're ever gonna go, then never let it show
'Cause I don't wanna know
Uh just say you'll stand right here forever
Through every high and through every low
If you're ever gonna go, then never let it show
'Cause I don't wanna know Oh no no no
Oh no
Oh no no no
Oh no no
I don't wanna know I hope that this is never ending
I just wanna see how it unfolds
So if you're ever gonna go, then never let it show
'Cause I don't wanna know
Oh, just say that you'll stand right here forever
Through every high and through every low
If you're ever gonna go, then never let it show
'Cause I don't wanna know
