

# You Were Meant For Me

[Donny Hathaway](#)

You were meant for me  
No one else could come between this love, I know  
'Cause I'll never let you go  
You and me it seems  
Never have a problem we can't overcome  
'Cause you'll always be the one  
Never thought I'd be so happy  
Loving you has made me feel so fine  
I can see my friends turn green with envy  
Every time I tell them, I'm so glad you're mine  
You were meant for me  
No one else could come between this love, I know  
'Cause I'll never let you go  
You and me it seems  
Never have a problem we can't overcome  
'Cause you'll always be the one yeah  
Never did one thing to hurt me  
You always understood my ways  
If I could, I'll stay right here beside you  
With your hand in mine, making love for days
