

Yeah

Fuel

I feel a long haired lady in a dress
Send a message streaming right up my back
This situation means something's up for nothing
Just as long as the rules are made all in advance I feel the passion of your actions
leave me something more here
If you want it all from me
just ask me one more time I'll say yeah!
Here it goes baby And even though there's a single and a double
Only one will get a use out of me
I'll give a rise to you both and let you know
That we are all in this together for a minimal fee I feel the passion of your actions
leave me something more here
If you want it all from me
just ask me one more time I'll say yeah!
Here it goes baby My baby gives me something most can never do
Bet you wish you were me If you want it all from me
just ask me one more time I'll say yeah!
