

Face to Face

Pacific Gold

[VERSE: 1] Staring at the crowd when you caught my eye
Time slowly ticking as I keep on standing by
Baby, if I eyes we can already know
I'm already thinking of another place to go
There's a lot of people in a trance tonight
Playing all the games trying to make you mine
Getting even closer to the finish line
Looking over here, I can give you a sign
[HOOK] Yeah, I'm going to take you to another place

Yeah, Yeah

Yeah, so you and I can meet face to face

Yeah, Yeah

There won't be no problems

You, me and the comets

Nobody will find us

Yeah, Yeah

Yeah, so you and I can meet face to face

[VERSE: 2] People see you staring thinking falling in love
There always watching and eyes just can't get enough
