I Have Always Loved You

No Mercy

Since the beginning of time
Since it started to rain
Since I heard your laugh
Since I felt your painI was too young
You were much younger
(You were much younger)
We were afraid
Of each other's hungerI have always loved you
There's never been anyone else
I knew you before I knew myself
Oh, my baby, I have always loved youSince we kissed the first time
Since we slept on the beach
You were too close for comfort
You were too far out of reachYou walked away
I should have held you
(I should have held you)
Would you have stayed
For me to tell youI have always loved you
There's never been anyone else
I knew you before I knew myself
Oh, my baby, I have always loved youYears go by in a matter of days
And though we go our separate ways
I never stop dreaming of you
I have always loved youYou are my heart
You are my conscience
You are a candle in the darknessAnd when you call it makes me cry
We never made time for you and I
We should have had a childI have always loved you
Years go by in a matter of days
And though we go our separate ways
I never stop dreaming of you
I have always loved youI have always loved you, baby
I have always loved you
Oh, ah, baby I do
I have always loved you
I have always loved you, baby
I have always loved you
