

# Behind the Leathermask

## Powerwolf

Heavy Metal in the night  
Deadly soldiers came to eat you alive  
Final battle for the wild  
Mental warfare of the scorpion tribe  
Blood invasion - Out to fight  
In a circle - We're the servants of light  
Stay - Better start to pray  
Killing me today  
Feel the war inside yourself  
And burn them all away  
Leather hides my face  
Blood is on my trace  
Until the end of days  
Behind the leathermask  
Behind the leathermask  
Savage union - Strong and wild  
Wolves of darkness  
We're the murderous five  
Fire warning in the night  
Cities burning  
Killed by serpents of might  
Stay - Better start to pray  
Killing me today  
Feel the war inside yourself  
And burn them all away  
Leather for the night  
Prophecies of might  
Dying side by side  
Here comes the leather...  
Here comes the leathermask
